Issue 98 — March 25, 2015

Super Fuzzy Searching on PostgreSQL

Need to do a little more than a basic LIKE query for search functionality in your app? Postgres has rich full text search functionality and you can gradually take advantage of it with as little or as much power as you need.

7 PostgreSQL Data Migration Hacks You Should Be using (But Aren't)

If you're manipulating and migrating data in some form or another this list of tricks is absolutely indispensable.

ALI ANARI [#TUTORIAL](#)

Foreign Data Wrappers for PostgreSQL

Foreign Data Wrappers allow you to access external non-Postgres data as if it were in regular Postgres tables. Here's a high level look at the idea.

Amazon RDS for PostgreSQL Adds Support for 9.4.1

Any major Postgres release comes with a bit of shakiness, which is usually fixed in the first point release. Now that point release for 9.4 (which includes JSONB) is available on RDS.

Why I Choose PostgreSQL Over MySQL/MariaDB

DICE NEWS [#OPINION](#)

Bringing The Power of Postgres to NodeJS

Postgres is awesome, and Rob clearly articulates that, but SQL isn't always the friendliest nor is dropping to a traditional ORM the best path. MassiveJS for Node is attempting to be the best of both worlds, give it a look here.
