Postgres Weekly

Issue 69

August 20, 2014

[My Wish List for Postgres 9.5](#)

While Postgres 9.4 is still not quite here yet, work is very much under way for the next release which we'll see about a year from now (9.5). Here's my personal wish list of what I'm hoping to see in 9.5.

CRAIG KERSTIENS

[Using Postgres as a Document Store](#)

Want to go full document store with Postgres and not just add a little flexibility here and there? Here's a look at some modern approaches to it (though just wait for it to improve with 9.4 and JSONB).

NATHAN FRITZ

[Introducing POWA - A New PostgreSQL Workload Analyzer](#)

Last week we saw [pg:diagnose](#) open sourced to help with monitoring performance of Postgres. This week we have another tool as a full web app that will monitor and analyze your performance.

VIRGINIE JOURDAN

[A Docker PostgreSQL Workflow](#)

If you're experimenting with Docker for deployment or anything else and have Postgres in your stack then you'll want to take a look at this walkthrough.

SNARLY SOD BOXER

[Another Wish List for Postgres 9.5](#)

As a follow-up to my initial list of what I'm hoping to see a few piled on to their hopes for 9.5. Here's another great list that hits on several things that would make Postgres much better for all.

DATABASE PATTERNS

[count_distinct improvements](#)

Count distinct while accurate hasn't always been one of Postgres' strong suits. There's been a few methods for approximating, but with mixed accuracy. Fortunately improvements to it are on the way.
