## Understanding Caching in Postgres - An In-Depth Guide

Postgres is quite intelligent about keeping your frequently accessed data cached. If you're not already convinced of that, give this a read and appreciate all that Postgres does for you.

## PLV8 Binaries for Postgres 9.6beta1 on Windows

Extensions, for many, are as important as the core of Postgres. Here almost immediately after the Postgres 9.6 beta release we have support for PLV8 - the V8 engine as a procedural language directly in Postgres... Yes, JavaScript in your Postgres.

LEO HSU AND REGINA OBE

## PGConf Silicon Valley - Call for Papers Open

PG Conf Silicon Valley is happening again this year in November so save the dates (Nov 14-16). If you have something interesting to say about Postgres, they'd love to hear from you.

PGCONF SILICON VALLEY POSTGRESQL CONFERENCE

## Building A Better Community: The Unsung Heroes Collection

While only a small number of people are core committers, there's a broader set of people benefiting Postgres who you may not know. In the first unsung hero award take a look at how David G. Johnston helps contribute and some of his views.

UNITED STATES POSTGRESQL ASSOCIATION

## Multi Master Replication for PostgreSQL

Need to deploy geographically distributed multi-master PostgreSQL clusters? Try Bi-Directional Replication (BDR) for free.
