Postgres 9.4 Feature Highlight: ALTER SYSTEM SET for Dynamic Configuration

While you could modify many config settings for a specific database, in 9.4 with some new new SQL commands you'll be able to modify the configuration of the Postgres server itself.

MICHAEL PAQUIER

PostgreSQL Conference New York - April 3-4, 2014

PGConf NYC 2014 focuses on how people use PostgreSQL, from the perspective of developers, DBAs, systems administrators, and decision makers. The schedule for the site is now live, take a look at the talks and make sure to register.

PGCONF NYC 2014

Understanding Postgres Parameter Context

There's a variety of controls within Postgres, each of these have different times and opportunities where they can be modified. Here's a great simple overview into them.

GURJEET SINGH

SQL for Reporting Queries

A collection of Postgres queries by @selenamarie that highlights some of the more powerful as well as useful features including CTEs, JSON, HyperLogLog, and Window functions.

SELENA DECKELMANN

Woolly: A Mac GUI for Postgres

There continues to be more and more in the line of admin interfaces for Postgres, clearly attempting to address the hole of quality ones. Here's yet another attempt for Mac.

MAC APP STORE

Constructing Escape-Time Fractals with PostgreSQL

While not overly practical here's a few really fun queries showing just how expressive you can be in SQL.

EXPLAIN EXTENDED

DB Doc 1.0: Postgres Database Documentation Tool

Commercial software (with a trial) that documents your server's properties, settings, and database objects.

YOHZ SOFTWARE
