pg_pathman: A Partitioning Tool for Postgres

This module provides an optimized partitioning mechanism and functions to manage partitions.

POSTGRES PROFESSIONAL   **#CODE**

Postgres Pivot Tables

'Pivoting' in data is a common activity, especially if you've ever analyzed data in Excel. It's also possible to do in Postgres, as demonstrated here.

GARY SIELING

An Iterative Approach to Writing SQL

SQL isn't always the prettiest language to work with but if you use the right tools, such as Postgres' CTEs, it can be made easier and you can gradually build up to something clean but powerful. Disclaimer: Page autoplays MIDI music and is very 1996.

WILL LEINWEBER

Scan and aggregate a 81 GB table in 5 seconds!

Vitesse DB Enterprise Edition is PostgreSQL enhanced with builtin multi-threading, LLVM JIT and compressed column store. Check out the TPC-H 100 numbers, and discover why PostgreSQL is ready for reporting and data warehouse.

CK TAN   **#SPONSORED**

SQL Performance of JOIN and WHERE EXISTS

A comparison of the performance and execution paths of inner joins and 'where exists' in PostgreSQL 9.5.

DAN MARTENSEN

Speeding up Postgres Restores

In many scenarios you'll want to pull production data to staging, but the time that takes can be time you're not testing... This post digs into some ways you can speed up getting a copy of production data elsewhere.

ADAM MCKERLIE

Using Regular Expressions in Postgres

Sometimes your database contains things that don't parse easily with LIKE %, hence you might use a regex. Luckily, Postgres can play really well with regular expressions as seen here.

REUVEN LERNER
